**Special Guest: Thom Reed, Global Program Manager For FamilySearch International.** Thom Reed is a highly skilled marketing and communications professional with more than 16 years of experience in consumer products, B2B, healthcare and technology marketing. In his current role as a Global Program Manager for FamilySearch International, he provides marketing and communication support for family heritage initiatives in Africa and the Pacific.

## WANT TO LEARN MORE ABOUT YOUR OWN ROOTS?

We Can help!

The 2018 *FINDING YOUR ROOTS* Family History Fair held in Williamsville, New York, offers family history learning and discovery experiences FREE to the public. Our expert instructors will provide you with the tools you need to learn more about your own roots and ancestors. Your family history discovery awaits!

**Ages 11 and Older Welcome! Beginners to Advanced.**

**You Are Part of Something Huge, Thousands of Years in the Making!** Linking the past to the present helps create strong family ties today and builds bridges of hope and understanding into the future.

We like to think of family history as a family affair. Even our young family members can have great experiences finding their own roots! In fact, studies have shown that children who learn about their ancestors are far more able to deal with the ups and downs of daily life than those who do not. So bring all your family members ages 11 and older. We hope to see you there!
